

NRC PLANT

QUALITY POLICY STATEMENT

This Statement sets out the Quality Policy for The Joseph Gallagher Group Companies which is seen as vital to the long term success of the business. The quality management system is based on the requirements of ISO9001.

The objective of the management of all Group Companies is to provide services/products of high and consistent quality in a manner that conforms to all statutory requirements and the contractual and regulatory requirements of its customers and lead to the continual improvement of the business and this management system.

In order to achieve this objective it is the policy of the Joseph Gallagher Group Ltd to establish and maintain an effective and efficient documented quality management system for each company planned and developed in conjunction with other management functions. The determination of conformity of work to contractual and regulatory requirements is made based on objective evidence.

The management will establish targets and objectives against which progress can be monitored towards the continual improvement of operations and services. These will be reviewed on at least an annual basis to assess the each company's performance.

This policy, which has been approved by the Managing Director of the Group, will be reviewed annually for suitability. These basic principles will be communicated, understood, and adhered to, by all those carrying out work on behalf of The Joseph Gallagher Group Ltd.
